

Philips
Surge protector

Slimline

8 outlets

SPPI187WA

Home theater

3750 Joules

Versatile styling allows the Slimline to be used in the tower position against a wall or flat on a desktop. Pure Power filters out noise and surges keeping your equipment safe, picture sharp and sound crisp.

Ideal for home theater systems

- Phone line protection
- 1-line splitter
- 2 sets gold coax protection
- Power blocker

High performance design

- 8 child-safe outlets
- V3 Advanced Surge Technology
- 58 dB EMI/RFI noise filtration
- \$350,000 connected equipment warranty

Built-in convenience

- 10 ft power cord
- Offset right-angle plug
- Protection indicator light
- Dual cord management systems

PHILIPS
sense and simplicity

Slimline 8 outlets

Specifications

Outer Carton

- Gross weight: 8.827 kg
- Gross weight: 19.46 lb
- Outer carton (L x W x H): 13.625 x 9.5 x 13 inch
- Outer carton (L x W x H): 34.6 x 24.1 x 33 cm
- Nett weight: 7.531 kg
- Nett weight: 16.602 lb
- Tare weight: 1.296 kg
- Tare weight: 2.858 lb

Packaging dimensions

- Packaging dimensions (W x H x D): 22.9 x 34.3 x 5.6 cm
- Packaging dimensions (W x H x D): 9 x 13.5 x 2.187 inch
- Gross weight: 1.388 kg
- Gross weight: 3.06 lb
- Nett weight: 2.767 lb
- Nett weight: 1.255 kg
- Tare weight: .293 lb
- Tare weight: .133 kg

SPPI 187WA/37

Product highlights

Phone line protection

These connectors accommodate an RJ11 cord, routing the telephone line through the surge protector to guard against spikes and surges.

1-line splitter

These connectors route the telephone line through the surge protector and split the line to allow two devices to be connected. It offers the convenience of leaving two devices connected constantly even though they may not be used simultaneously.

2 sets gold coax protection

Gold-plated connectors route the coaxial signal through the surge protector to protect the line from surges and spikes. Allows two cable devices to be plugged into the same unit. Gold connectors act to reduce noise (snow, vertical lines, etc) in picture and keep data safer from devices with cable modems.

Power blocker

This automatic shutdown technology senses when the device has reached capacity and automatically shuts down electricity to your equipment. It protects against subsequent surges, even if you are not present.

8 child-safe outlets

Safety slides provide a protective barrier that block the outlet so small objects cannot get in. Keeps children safer.

V3 Advanced Surge Technology

This new surge protection technology provides 27% greater surge protection capacity and better heat dissipation for safe, more reliable and longer lasting surge protection.

58 dB EMI/RFI noise filtration

Built-in filtering technology ensures the best performance from your components. It guards against signal interference and loss of data. The higher the dB rating the better the noise reduction.

10 ft power cord

Provides power to the unit which can be 10 feet from the AC outlet.

Offset right-angle plug

This flat and angled design conveniently directs the cord away from the lower outlet and allows furniture to sit more closely to the wall.

Protection indicator light

This LED alert lights up to indicate the surge protector is working properly.

Dual cord management systems

Collects the power cords and directs them away from the device in an organized fashion to keep the area clutter-free.

\$350,000 equipment warranty

Protects your connected equipment for the life of the product.
